Chief begins farewells Little practice

CHIEF of Army Lt-Gen Peter Leahy has visited Timor-Leste to say farewell to serving International Stabilisation Force soldiers and the many Timorese friends he has made during his career.

This was his last visit to Timor-Leste, as Lt-Gen Leahy will shortly retire from the Australian Army after 37 years' service.

"Thank you for the way you represent Australia and our Army," he told the troops. "Thank you for your dedication, professionalism and commitment to helping the people of Timor-Leste. I see significant changes and I sense a better future for Timor-Leste. You and those who came before you, have helped this change."

He spent two days visiting soldiers at Gleno and Same forward operating bases, as well as several locations in Dili.

Of special significance was his visit to the Chief of the Timor-Leste Defence Force, Brig Taur Matan Ruak. The two men have become firm friends over recent years and the warmth of their friendship was evident during the meeting at the Memorial Hall in Dili.

Lt-Gen Leahy congratulated the brigadier on the recent successes of the Timorese Joint Command, and for the surrender of the rebel group. He said that this outcome would do much to contribute to the country's long-term stability.

Significant changes: CA Lt-Gen Peter Leahy says farewell to members of the ISF in Timor-Leste.

but still perfect

THE winner of this year's Champion Shot of the Army (CSA) award has beaten the odds, not having fired a service rifle since AASAM 2007.

Cfn Jaden Hopfner, currently on a two-year exchange with the Navy's 816 Sqn at HMAS Albatross, topped a field of 40 of the Army's top shooters to become the Army's champion shot for

Cfn Hopfner said the three days of competition were demanding, high pressure and a fantastic learning experience.

"What makes it hard is the Navy at Nowra don't shoot so I've got nowhere to practice. The only shooting I do is each year at AASAM," he said. He said he first started shooting rab-

bits when he was about 12 at Coomealla, across the Murray River from Mildura. "But I didn't actually start tar-

NT task 'an honour'

DEFENCE members and public servants involved in the Northern Territory Emergency Response (NTER) have risen to the challenge for a "noble cause", according to NTER operational commander Maj-Gen Dave Chalmers.

As the Federal Government's 12month review mark for the intervention in NT Aboriginal communities approaches, Maj-Gen Chalmers presses on with his community engagement visits to gauge progress on the ground.

"The 12-month review of the intervention mid this year is not to assess the metric of how well we have done in rolling things out, which is my concern, but the broader issue of whether the intervention measures are having the sort of effects in communities that the government wants to have," he said.

Maj-Gen Chalmers is responsible for coordinating the intervention's various government departments in their work in remote communities. Run as a whole-of-government operation, the intervention's long-term goal is to bring about a permanent improvement to living standards and conditions in

While the roll-out of emergency measures to remote communities is still occurring, Maj-Gen Chalmers is travelling widely to maintain dialogue and community confidence.

"Establishing that stable platform within indigenous communities to intervention's initial phase," he said.

"Our first challenge under the

rience as an ADF officer to Australians in need, is quite an honour."

Successfully navigating the departnental complexities to bring about the whole-of-government approach is a part of his job that he credits to his ADF training and experience.

"As professionals in the profession of arms, we probably receive more training and preparation for our job than any other," he said.

His role commanding Australia's oint taskforce assisting with humanitarian relief in Aceh after the 2004 tsunami explains the decision to appoint him as NTER operational commander.

In summarising the wider contribution Defence has made to the intervention through Operation Outreach, Maj-Gen Chalmers said the logistical support by Norforce in getting child health teams out to communities and ensuring they were settled and able to do their work, was very important.

"I know this role has taken Norforce away from their normal training, and has required them to operate at quite a high tempo, but it's really made the difference, and I'm sure it would have been almost impossible to get the child health check teams out to hese remote communities in the time frames that we've done, had we not had Norforce support," he said.

"I think the ADF's work on the ntervention shows we're an institution that is not only critical to the defence of the nation, but one that can also rise

Maj-Gen Chalmers is proud of the NTER operations centre's efforts so far intervention has been to create a break munities through the introduction of who grew up with little exposure reform, the quarantining of people's and the positive effects the intervention

Boer memorial dedication

DESCENDANTS of both Australia's first VC winner and an officer executed alongside "Breaker" Morant have been invited to a dedication ceremony at the site of the proposed National Boer War Memorial on Anzac Parade in Canberra on May 31.

Family members of Capt Neville Howse, who was awarded the VC under fire, and Lt Peter Handcock, executed by firing squad with Lt Harry Morant for shooting Boer prisoners, are expected to attend.

Nigel Webster, a member of the National Boor War Committee, said Col John Lenehan (retd) would orders from Lord Kitchener to "take The Federation Guard will provide speak at the ceremony. "Col Lenchan's grandfather, Maj

ARTC takes charity lead

By Sgt Dave Morley

STAFF and recruits at ARTC Kapooka have dug deep into their pockets - and their reserves of fitness - to support local charities.

Commandant ARTC Kapooka Col Bill Hanlon recently presented six charities with a \$10,000 donation on behalf of staff and recruits.

This came hot on the heels of the Chariots for Charity Race, won by a team of ARTC PTIs, who raised \$3200 in the process. And Col Hanlon will soon

present about \$3500-\$4000, the proceeds of fundraising at last month's Kapooka Services Spectacular, to the Kapooka Early Childhood

Col Hanlon said that ARTC had a very effective charities committee that supported the local community. "As well as supporting the Charles Sturt University and TAFE that provide support in a number of Service.

Proud

The unveiling of the Park of the Australian Soldier had special meaning for the contingent members who travelled to Israel for the ceremony, Cpl Corinne Boer reports.

T SUNSET on October 31, 1917, more than 1500 Turkish guns blazed as 500 horse-men from the 4th and 12th Light Horse Regiments galloped towards the trenches, bayonets at the ready.

The Turkish infantry, caught by surprise, had forgotten to lower their rifle-sights and the bullets were

flying over the Australians' heads.

As British batteries shelled the Turkish outposts the horsemen's laughs turned to shouts when they leaped

into the trenches and broke the defensive line.

The Battle of Beersheba was a pivotal moment in the Sinai/Palestine campaign of World War I, leading to the defeat of Turkish forces at Jerusalem and Damascus.

Almost 91 years later, a contingent of seven World War II veterans and 35 soldiers visited Israel for the dedication of the Park of the Australian Soldier in the city now known as Be'er-Sheva. The soldiers were mostly from 4/19PWLH and 12/16HRL, descendant units of those that participated in the charge, an event immortalised by the park's centrepiece.

The nearly 40C heat was felt instantly by the contingent members when they arrived in Israel four days earlier with 600kg of luggage. Israel's security is one of the most stringent in the world and getting the unit guidons and lances through proved a challenge. Soldiers hoisted the 3m casing on their shoulders and manoeuvred them carefully through the airport terminals. 4/19PWLH Bandiana Depot Commander WO2 Stephen Russell said to his knowledge this was the first

time the guidons had left Australia.

"The guidons are priceless items for the respective regiments," WO2 Russell said. "When they were going through the scanners the gold braiding raised some eyebrows, which resulted in a few scarches."

The contingent had just a day to rehearse for the event, which was conducted with members of the Multinational Force and Observers from Sinai.

connection with past

WO2 Russell rated the dedication ceremony as the most significant activity he had been involved in.

"I have visited Gallipoli, attended the military funeral of Australian soldiers at Kranji War Cemetery in Singapore and the ADF anniversary parade at Beersheba," WO2 Russell said. "I can't separate the other three trips, but this trip would

The event was extra special for soldiers who had relatives involved in the charge.

Pte Renae Heydon, 12/16HRL, said she was pleased to be involved in the ceremony.

"My great-grandfather joined up and was at Beersheba. He was involved in World War II as well," Pte Heydon said. "My grandmother found out that I was going to Israel just before I left. She was proud and happy that I was going."

4/19PWLH Sale Depot Commander Sgt David Ahchow said his grandfather was in the 3rd and 4th Australian Light Horse Field Ambulance and treated the wounded soldiers after the charge.

"He survived the war and went home. He received three medals, like most people involved in the campaign," Sgt Ahchow said. "I was very emotional during the ccremony. I had my grandfather's medals with me. I didn't wear them on parade, but I wore them after the service. So it was a special family link for me."

After the dedication ceremony the soldiers visited the site of the charge. Just like their predecessors, the soldiers gathered at the site at halflight. As the light faded, the city of Be'er-Sheva glistened in the distance. A cool evening breeze rustled the soldiers' magnificent emu plumes while they took a moment to reflect.

Centrepiece: Tpr Matt Costello in front of Peter Pte Fred McPherson (right), Corlett's sculpture, the main feature of the Park of the grandfather of Sgt David the Australian Soldier.

"Going out to the site of the charge was incredible," Sgt Ahchow said. "To stand there and think back to what happened there almost 91 years ago and to actually see where my grandfather rode was really special."

"This is my first time ever out of Australia and to come half way around the world to Beersheba is phenomenal. For many of the soldiers the trip is the highlight of their Army career, but this is the highlight of my life," Sgt

among the possessions of Photo by Cpl Corinne Boer Ahchow (far right).

Tpr Matthew Costello, 4/19PWLH, was also making his first overseas trip with the Army.

"Being part of the ceremony was hard work because it was so hot, but everyone performed well on the day," Tpr Costello said.

The soldiers formed a strong connection with the veterans, who were ex-members of assorted Light Horse units. Many of the veterans shared their history with soldiers keen to learn from

"They are all 60 years older than we are and felt and not just out of politeness."

had really long days but they handled it well," Tpr Costello said.

Cpl Stephen Coxhead, 12/16HRL, had goose bumps on the back of his neck as he marched to the band during the dedication ceremony.

"It was really moving at the end of the ceremony when the crowd applauded as we marched out," Cpl Coxhead said. "One of my favourite parts during the ceremony was when the Turkish diplomat spoke; his speech was genuinely heart-

DHA continues to improve its maintenance services

Quarterly maintenance survery results March 2007/08

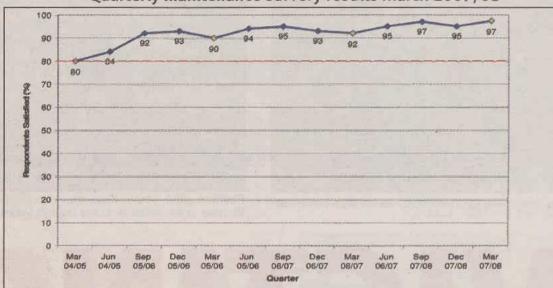

In 2008 DHA marks a major milestone – its 20th year of operation. Since 1988, housing for the Defence forces has come a long way, and DHA is proud to provide homes, that ensure comfort and modern living for Defence families around the country.

Today, DHA's homes are modern, with neutral tones - and most importantly are of community standard - the same standard of which your neighbours and friends enjoy. But the high standard of DHA homes can only be sustained through the expert maintenance and services which are provided to Australian Defence Force (ADF) families.

DHA provides a comprehensive and responsive maintenance service to ADF families, this includes the provision of a 24-hour telephone emergency helpline. The helpline can be used for any immediate problems that affect the health, safety and security of you, your family or the residence.

DHA regularly conducts maintenance surveys to gauge member satisfaction with the way work was completed, customer service and contractor's service; but also to ensure that invoiced work has been completed.

A random sample of ADF members who had either responsive or after-hours emergency maintenance work completed at their dwelling are contacted by telephone to complete the survey.

randomly chosen to complete the survey. The results of survey were very positive:

- Of the members (1623 people) who had work completed during the quarter, 97% (1581) were satisfied with the overall maintenance service.
- This is up four percent on figures from the same quarter in the previous year.
- DHA's customer service performance showed that of the 1616 respondents, 93% (1501) of respondents were satisfied with DHA customer service.
- This is a rise of two percent when compared with the March 06/07 result (91%).

- In March of 2007-08, 1671 ADF tenants were The main reasons for dissatisfaction were DHA taking too long to organise the job and the member having to follow up.
 - Of the 1611 respondents, 1572 (98%) respondents were satisfied with contractor services. This is up four percent on last year.
 - The main reasons for dissatisfaction with contractor service were quality of workmanship and the tenant having to clean up after the contractor.

DHA reports on its maintenance survery results quarterly, results are are available via the DHA website (www.dha.gov.au).

EVICTING THE TALIBA

Reconstruction Task Force 4 has hit the ground running, pushing into the strongholds of Taliban extremists.

Report by Capt Douglas McGuire, photos by Cpl Neil Ruskin

USTRALIAN soldiers have begun a major push into the Taliban heartland of Oruzgan province in southern Afghanistan with the intent of pushing out the Taliban, restoring vital infrastructure and creating a safe environment for the Afghan

The push is being spearheaded by engineers, infantry, cavalry and support troops of the Reconstruction Task Force 4.

RTF 4 CO Lt-Col Stuart Yearnan said the task force had moved into the Baluchi region, north of its base at Tarin Kowt, as part of a joint coalition

"This is an area of huge tactical and strategic significance for the Taliban extremists," Lt-Col "This is the Taliban's back yard and we are right

on their main supply route between Helmand province and their supply bases to the north. "The aim of this series of operations is to

clear out the Taliban, and then build the physical infrastructure - patrol bases particularly - which will allow the Afghan National Army (ANA) and police, with support from the International Security Assistance Force, to dominate these areas."

RTF 4 took over responsibility for its area in April and has already built on work done by the previous rotation, reinforcing patrol bases and car- evidence of that starting to happen here on the rying out a series of vehicle and foot patrols in the ground in Oruzgan province," he said.

"green zone" an area of small irrigated farms bordering the desert.

Lt-Col Yeaman said the diggers had received a warm reception from the local people.

"They really seem to welcome our presence here. I think they have a real desire for a peaceful future, and they see our operations with the ANA and the police as a step in the right direction," he

"This has been a stronghold for the extremists in the past, and we don't expect that they will simply accept our presence here, and the disruption which we are causing to their operations. "We have been working very closely with the

local military and police and this is having significant spin-offs in terms of starting to build a relationship with the local people.

"Just months ago Taliban extremists were able to operate almost unhindered here, now the situation is very different. It's fair to say that these operations, which are happening across Afghanistan, are having a real, positive impact on the security

He said a delicate balance was required between overcoming the Taliban by force and making them irrelevant through capacity building and winning the hearts and minds of the local population.

"Longer term capacity building will be the way the Taliban is finally defeated. We are seeing clear

"It wasn't pushed home, it only lasted 45 minutes [on our position] and it was fairly obvious to everybody when the attack on D Coy developed that it was the main game Battle of Balmoral period go to http://www. [for the enemy] by a long way," Maj-Gen Howard said.

BATTLE OUTLINE

ON May 24, 1968, 3RAR was tasked to occupy FSB Balmoral, about 41/2 kilometres north of FSB Coral. Two companies arrived in the area by foot and the remainder of the unit followed by helicopter late in the afternoon. This enabled defences to be established without warning the enemy of their presence. Joining them at the location were Centurion tanks from 1 Armd Regt and APCs from 3 Cav Regt. Two major attacks took place during the occupation of the location, one on May 26 and May 28. They were carried out by 165 North Vietnamese Army Regt, with D Coy, 3RAR, bearing the brunt of both the attacks. The two attacks left four Australians dead and 22 wounded. The bodies of 48 NVA soldiers were found and seven POWs were captured.

(Source: 'On the Offensive: The Australian Army in the Vietnam Wars 1967-68 by lan McNelll and Ashley Ekins.)

"I was more concerned about D Coy than what I was about us, as it was a big attack and I wondered if they were going to hold them out." The May 28 attack cost the Jeffrey Worle, which took to four held their perimeter intact and the battalion withstood one of the larg-

Leaders in their field

at Gallipoli Barracks was successfully completed with a march-out parade on April 11.

Lt-Col Simon Stuart, CO of the recently re-formed 8/9RAR, reviewed the 87 soldiers

Capt Roger Briggs, OIC of the Soldier Training Section (South Queensland), said the course participants completed an intense eight weeks of training.

"They have become the newest group of leaders to contribute to the Army's capability." he said.

Awards for best instructor, leadership, military skills and trainee of merit were won by soldiers from 4RAR (Cdo) who had only been back in Australia for two weeks after being deployed to Afghanistan.

"It's important to note their ability to switch from operations to training and then acquit themselves in a professional manner," Capt Briggs said.

The JLC supersedes the Subject 1 for Corporal Course, which was last held in December 2007.

"The JLC represents one of the many courses conducted by the recently raised Warrant Officer and NCO Academy," he said.

"The academy is responsible for managing the all corps training for soldiers from private Capt Briggs said the JLC was also con-

ducted at Lavarack Barracks, Holsworthy Barracks, Simpson Barracks and Hampstead "The Soldier Training Sections in each

location will conduct four of these courses

Welcome to the 1RAR family

THE newest soldiers of 1RAR marked the end of their initial employment training at a marchout parade on May 10.

The reviewing officer, CO IRAR Lt-Col Peter Connolly, welcomed the new soldiers from Solace Platoon by telling them they were now part of the 1RAR family.

He reminded them that "everything you do from now on will count" and that they would be "following the standards set by the Anzaes in World Wars I and II."

Three soldiers received awards: Pte Ross Vagg for physical training, Pte Wade Cull for skill at arms and Pte Ryan Learmonth for best

After the parade, the soldiers' families and friends were treated to weapons and equipment displays, and a tour of the IRAR historical

Well done: Pte Ryan Learmonth is congratulated by Lt-Col Peter Connolly for being awarded best soldier.

LEAD TWICE THE LIFE WITH DMO

DMO

AS A RESERVIST WITH DMO THE OPPORTUNITIES ARE ENDLESS

DMO offers the chance to broaden your horizons through a wide range of challenging and varied work. You may be employed in one of 215 major or 200 minor projects, across 50 locations in Australia.

A range of exciting opportunities are now available (both part-time and continuous full time service opportunities) for Army reservists. DMO is currently seeking reservists from within the following specialisations or trade groups:

- Project Managers
- Engineers (Mechanical and Electrical) •
- Communications and IT
- Aircrew

- Logisticians
- **Technical Trades**
- Administration

This is great chance to work in Australia's leading project management and engineering services organisation, dealing with diverse multimillion dollar projects of national significance. It's also an opportunity to receive exceptional working conditions, and the chance to balance work with your other interests.

WO1 Tony Minniti

Armament SPO

Victoria Barracks - Melbourne

Warrant Officer Minniti is employed to assist with the review and update of weapons related documentation including Integrated Logistic Support Instructions and Electrical and Mechanical Engineering Instructions.

"I have found DMO to be an excellent employer with a wide variety of work available"

Women celebrated Appointment

contribution made by Australian women to the defence of the nation both in peacetime and during conflict will be held at Townsville's Lavarack Barracks on June 1.

The Celebration of Women in Defence event will bring together former and serving members of the ADF as well as current and former Defence public servants.

Maj-Gen Liz Cosson, Head of National Operations in the Defence Support Group, will be an official guest at the event.

Event organiser Maj Wendy Quayle said the celebration aimed to gather a cross-section of women, from those who served in World War II up to the present. "It's about paying tribute to the

key role played by women in Defence, and ensuring that their endeavours and achievements are recognised," Maj Quayle said.

"It will also recognise the changes in the roles of women in Defence over time, and inspire women who are currently in the regular forces, the Reserve, and the public service."

She said former members would also get a look at the range of opportunities that existed for women in Defence today.

The event will feature displays and memorabilia including photos, uniforms and recruiting material from the 1960s and '70s. Women currently serving in local North Queensland ADF units will be on hand to explain their careers.

Former and serving members are welcome to attend the Celebration of Women in Defence event. Call Capt Lynn Harding on (07) 4771 7031 to register.

Memory lane: Maj Wendy Quayle and Capt Lynn Harding with memoribilia.

an honour

By Michael Brooke

WO1 Michelle Wyatt has been named the RSM of the Royal Australian Army Nursing Corps (RAANC), which goes hand in glove with her appointment to RSM of the Army School of Health in 2007.

WO1 Wyatt was named the RSM RAANC and formally presented with a certificate of recognition during the annual corps conference at Victoria Barracks from May 8-9.

"It's a tremendous surprise and honour," she said.

"As I had been previously posted to the Health School in its various iterations over the years, I am very honoured to serve as the RSM Army Promoted: WO1 Wyatt School of Health, while it's with her RSM parchment. a great privilege to be named the RSM of the RAANC."

Tpr Clint Gordon joined the Army in 2002 and has been posted to the Federation Guard since mid-2007. "Before coming to the Guard I was an ASLAV crewman specialist at 2 Cav Regt in Darwin," Tpr Gordon said. His favourite aspect of being posted to the Guard was being able to travel, representing his unit and the ADF. "So far I've been to Sydney, Brisbane and France, with the Anzac Day parade at Villers-Bretonneux being the highlight of my posting to the unit," he said. During the Anzac Day ceremonies he was a member of the catafalque party. "The highlight of the trip was to be able to stand on the same ground our predecessors fought on," he said. "It was a sombre sort of day and when I heard the Last Post played it was pretty moving." In his spare time Tpr Gordon enjoys spending time on the water. "I ride my wake board; I used to do it in Darwin, but it's a bit cold in Canberra at the moment," he said. "I also go camping, surfing and deep sea fishing."

ing and awesome experience to be there," she said. "It's hard to describe the emotions I felt, but I was proud to be an Australian there representing the ADF." Out of work Pte Brown keeps herself busy with university studies and running. "I'm studying to be a dietician and I run an average of 70km a week. I run mainly half and full maraget to in the military, such as travelling to different thons, with my best result in this year's Canberra locations and performing at parades for dignitaries marathon, although I did win the first marathon you wouldn't normally get to see or meet." Prize-winning rip-offs

Australian Securities and Investments Commission Chairman Tony D'Aloisio lists the 'winners' of the Pie in the Sky awards.

VERY day we hear of new advances and breakthroughs in science, health and all areas of human endeavour.

Unfortunately, similar advances are also being made by financial fraudsters, who are often quick to make use of new technology or social developments to steal from innocent victims.

Pie in Sky awards

At ASIC, we have established the Pie in the Sky awards to identify the scams that have reached new lows. fee fraud. This disturbing scam com- deceased's next of kin. The catch is, bines the use of technology through as usual, that to claim the money the bulk emails with the very human tragedy of the Boxing Day tsunami. The and pay a fee. emails, which were sent throughout the world, claimed to be from a lawyer at new ways of tapping into other peo-estate of a man who died, along with his family, in the Boxing Day tsunami doing this quite blatantly, not to men-vest.com. It invited people to invest disaster in Phuket three years ago.

Avoid the traps: check out any The email's recipient "coincidentally" had the same name as the deceased man and the lawyer claimed to have the role of establishing whethor the deceased and the recipient were fund in Australia". related. The scam operates on the basis ASIC found that Instep Super

"ambient electromagnetic radiation" into usable household energy, and promising to cut power bills by 37 per cent. People were invited to invest up Treat all guarantees of returns or to \$40,000 with "guaranteed" returns of at least 30 per cent a year.

The website was launched on April Fool's Day in 2007 to demonstrate how easy it is to create something that 20 per cent returns and claiming it was looks like a real investment. So far the site has had 75,000 hits - all of whom we hope have learned a little about the sophistication of investment fraud as

Spotting scams

Regardless of the approach by fraudsters, whether it is old-fashioned cold calling and postal mail or modern internet scams, there are some simple ways to spot scams and avoid losses:

Financial scams almost always offer cent a year or more; others, on the

other hand, might offer 20 per cent returns for a product that normally

returns about 7 per cent interest. There's often some feature to make you feel like you've got an edge over other people. The promise of special deals, secret opportunities and exclusive offers may make you feel you're getting something really worthwhile.

Scams are usually presented as "time-critical" and often implore people to hurry "before it's too late" but they're really just trying to take your money before you check the offer properly.

of your investment very carefully. With money and investments, a guarantee is only as reliable as the

person or company offering it. We trust people we know. Sometimes these people can innocently be used to sell dangerous schemes, including scams. It's called affinity fraud. Information and friendly advice can be helpful. but be extra cautious with tips about specific investment opportunities. You may need advice from a licensed adviser.

The best way to avoid being scammed is to stay informed. You can check a business offering a financial product or a financial adviser by high returns. Sometimes they are searching ASIC's online registers at easy to pick, with a return of 300 per www.asic.gov.au to see if they are

HEALTH

Get ready: Make sure you are medically fit and at an appropriate level of fitness before starting this Photo by LS Yuri Ramsey intensive training.

Turning 30-something?

Don't let your birthday end in higher premiums.

If your partner is 30-something and does not have private hospital insurance, then they're looking at higher premiums.

Under the Federal Government Lifetime Health Cover initiative, health funds are required to apply a 2% premium loading for every year a person delays purchasing hospital cover after turning 30.

As a permanent member of the ADF, the premium loading will not affect you until you discharge. However you do need to consider its effect on your partner.

By purchasing Defence Health hospital cover by 30 June, your partner's premium loading will be minimised. And if you make the purchase by 30 June, following your partner's 31st birthday, the loading will be avoided altogether.

Remember, the longer you leave it the more it will cost.

For details call Defence Health on 1800 335 425 or visit www.defencehealth.com.au

United: After a ferocious and spirited contest, Army and Navy players celebrate the fact that they played on the hallowed turf of the SCG for the first time.

Photos by LAC Aaron Curran

Bruising triumph

Army started to drift away slightly, which gave Navy the opportunity to score two tries. Navy failed to convert one of them, but had closed to within two points.

In the dewy and slippery conditions it turned into an increasingly desperate battle - Navy needed only one try and Army had to hold them

"It was there for the win and it was an outstanding effort that everyone put in," Capt Lynch said.

"Twelve months ago Navy beat us by two points in the combined services championships and we wanted to come here, prove a point and win, which we did.

"The captain, Sgt Nick Matthews, was forced out with injury but he injured and led the way. That cer- an ice pack to an injury.

Battle of the Rhine

THE Australian Army Rugby Union team's last match of its European tour ended with a 13-15 loss to a British Army side in a ferocious contest on German soil at Athlone Barracks on May 10. The Australians led 13-3 at half-time but their hosts

held them scoreless in the second half. Pte Joey Kirkland, 2RAR, opened the scoring with

a penalty goal after British indiscretions at the break-

The Townsville connection set the crowd alight when Capt Trevor Hogan, 2RAR, launched the tackle of the tour on an unsuspecting British centre. This in turn forced the ball loose for Sgt Gav Whiteside, 1RAR, to capitalise on the forced error. Whiteside created space by attracting four defenders and provided quality service to Cfn Matt Fraser, 31/42RQR, to score under the posts. This put the Australians in a dominat-

ing position with a 10-0 lead. Penalties allowed territory and point-scoring opportunities for the Brits to come back with a penalty kick. As the first half came to a close, there was one last scoring opportunity for the Australian XV through

a penalty shot 45m out. Again, the cool-headed Pte Kirkland was accurate.

The second half began well for the visitors as they controlled territory early. However, an unforced error at the lineout gave the British unexpected ball from which they used the brilliant attacking flare of their back-line to outmanocuvre the unprepared Australian defence and score an 80m try. The lightning speed of the English outside backs was a stern reminder to the Australian outfit that they had to maintain their guard at all times. With the added points of the conversion,

the Bristish Army team closed the gap to 13-10. The Australian side had overwhelming possession and mounted numerous attacking raids, but could not break through. After eager defenders charged down an Australian attempt to clear the ball into touch, the Brits were able to score a try in the corner against the run of

The on-field battle was fierce and all one had to do was look to the final score to know that it was a game of evenly matched wills.

Team captain Maj Sean Kearns said he was proud of the side's effort.

"I really felt for the duration of the game we were on top. Two small mistakes and a touch of backline brilliance giving them 12 quick points is something we

could have done without," he said. "We've played some strong football in France and Germany and that's conditioned us and prepared us for the lead up for the inter-services carnival in Canberra."

Team coach Lt Damien Cahill said it had been an important tour, "one that has taught us many lessons, foremost working together as a team and we leave Europe knowing our capabilities and are proud of our

Victorious: The Army AFL team celebrate their win over Air Force in the Legacy Cup match at AAMI Stadium.

Army gives Air Force the slip

ARMY was as slippery as both the yellow Sherrin and the surface when it wrested the Legacy Cup from Air force in a watery annual Australian football encounter at Adelaide's AAMI Stadium on April 26.

Army lost by 30 points in 2007 but gave Air Force the slip this year to win by 17 points, 5.4 (34) to 2.5 (17), after the scores were locked at 1.3 (9) at half-time.

The match, to support the great work undertaken by Legacy, was played as a curtain-raiser to the Australian Football League match between Port Power and St Kilda Saints in front of a crowd that eventually built to 20,000.

year; made up largely of the finest athletes 16 in red were "here to play".

From the first bounce until half-time it was After Air Force had enjoyed an early lead, from SA Legacy vice-president David Gray.

Army wins bruising encounter

By LAC Aaron Curran

RUGBY league officials could not have wished for a better curtain-raiser to the Centenary Test than Army's clash with Navy at the Sydney Cricket Ground on May 9.

Army held on for an 18-16 win over Navy to claim the Patron's Cup. In a bruising encounter, both sides put in a big effort, ending the game exhausted and bloodied.

The game was a prelude to the Test between Australia and New Zealand, but because of the vociferous support of the crowd you could have been forgiven for believing they were there only for the game between the ADF rivals.

Army opened the scoring in the fifth minute and

Army opened the scoring in the lifth minute and went on to hold an 18-6 lead at half-time, but only after some heavy clashes between the two sides erupted into a fiery melee.

"That's part of football and that is how it is played – hard and with heart. Both sides played with a lot of heart." Navy coach David Kemp said. Army coach Capt Al Lynch said after half-time his team "came back out and attacked, but through

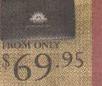

some silly mistakes the roll-on just died away".
